TOKYO 2020 JUDGES BENEFIT FROM EDUCATIONAL PROGRAMME

As Japan prepares to host the Olympic Games in 2020 in Tokyo, the UIPM is currently developing and delivering specific judging programmes for Modern Pentathlon in Japan to assist Japanese NF to train more officials at international level.

At the end of 2016, the Japanese International Judges passed an official judges seminar and on the road to Tokyo, the group will attend various World Cup and World Championships in order to learn more about international competition.

The Olympic Modern Pentathlon judges can have an impact on developing and improving the Modern Pentathlon in Japan. Having access to the latest knowledge and understanding of our sport will give it the best opportunity to succeed in the Olympic environment.
