President Gaziev added: “Russia is one of the leading countries in modern pentathlon in the world. In Uzbekistan, we are just starting to develop this sport. It is important that the pentathlon consists of five Olympic sports - swimming, fencing, jumping, running and shooting. Therefore, by developing the pentathlon, we will thereby develop other Olympic disciplines.

“The Federation of Uzbekistan plans to send our athletes and judges to competitions and seminars that take place in the Russian Federation. And over time, and we will invite Russian pentathletes to Uzbekistan.

“I believe that cooperation between the Russian and Uzbek federations of Modern Pentathlon will be long and mutually beneficial.”
