07.12.2020: IOC Executive Board

The UIPM President, Dr Klaus Schormann, had various telephone and video meetings with members of the UIPM Family on the day the Executive Board of the International Olympic Committee (IOC) decided the final programme for the Olympic Summer Games Paris 2024.

The IOC EB meeting was followed by a press conference given by the IOC President Dr Thomas Bach. UIPM also received positive communication from the IOC about the suitability of the new Modern Pentathlon format proposed for Paris 2024.

President Dr Schormann wrote to National Federations to add context and explain the outcome and made a statement in the official UIPM press release. He said: "We are proud of the dynamic changes made to the Modern Pentathlon in recent decades and we are very pleased that the IOC Executive Board has recognised our commitment to innovation by approving this ambitious vision for Paris 2024.

"We appreciate that all International Federations have been unsuccessful in their applications for

additional medal events for Paris 2024. This setback only sharpens our resolve to continue innovating and reshaping Modern Pentathlon for future generations."
