AISTS AND UIPM JOIN FORCES

With UIPM keen to provide the platform with which students from the AISTS Sports Management course can gain practical experience of working within the International Federation of an Olympic sport, the governing body of Modern Pentathlon worldwide has signed a partnership agreement with AISTS that will see students come to the Monaco office and assist with the various projects undertaken by the Headquarters.

“The AISTS (International Academy for Sports Science and Technology) is a foundation located in Lausanne, the Olympic Capital, Switzerland. It was founded in 2000 by the International Olympic Committee (IOC), EPFL (Swiss Federal Institute of Technology Lausanne), IMD Business School, University of Lausanne, University of Geneva, IDHEAP (Swiss Graduate School of Public Administration), Ecole hôtelière de Lausanne, the City of Lausanne, and the Canton of Vaud.

The mission of the AISTS is to *Master Sport* by positively contributing to sports management through a multi-disciplinary approach to education and sciences and by remaining at the forefront of the sport industry’s development and the Olympic movement.”
