UNIVERSITY OF BUENOS AIRES TO PROVIDE PERFECT ENVIRONMENT FOR ATHLETES TO TRAIN AND LEARN

The Modern Pentathlon Federation of Argentina have received important information from the Ministry of Social Development and the University of Buenos Aires, have implemented a curriculum for athletes, which will allow them to study and continue to compete at the same time.

The same main objective, to promote the inclusion and retention in the university students who are developing sports activities of federal nature, generating the necessary mechanisms to that career does not conflict with the academic route causes of such administrative (times given or overlapping test dates with Calendar competition or training, etc..).

To this end, the University of Buenos Aires offers a number of alternatives which undoubtedly will result in an improvement in the experience of those / these young people, making sports practices sustained and systematic way, decide to make their training at the Buenos Aires University.
