PERU HOLD OLYMPIC SOLIDARITY SEMINAR

Image not found or type unknown

Initiated by the South American Modern Pentathlon Confederation and the Peruvian Modern Pentathlon Association, with support from the Peru Olympic Committee, the Military Sports Federation and the Military Academy, this Olympic solidarity seminar gave the foundations for the country to host several high quality Modern Pentathlon competitions in the coming years.

With Peru having access to some excellent horses and equestrian centres along with the influence of the Military in the country, the development of Modern Pentathlon will come at great pace. There is great anticipation that this will lead to some success at the ODESUR Games in the very near future.

UIPM and CSPM have provided both laser pistol and targets to aid and accelerate this development with high hopes that this will further contribute to the development of both coaches and athletes in both the country and the region.
