PENTATHLON ONTARIO HOLD WINTER INVITATIONAL

Image not found or type unknown

20 athletes from Ontario, Canada and the USA (Michigan and Indiana) ventured out to the University of Toronto's Athletic Centre on January 5th to compete in the first Pentathlon Ontario Winter Invitational to be held in several years.

In divisions from the new youth F division to Masters, the competition featured the first ever combined run/ laser, precision shoot in Canada for Youth C, D, E and F, as well as the first ever experimental ladder fencing for Youth A and up in Canada where several athletes successfully worked their way several places up the ladder with the highest placed fencer prevailing.

Pentathlon Ontario were keen to congratulate all competitors and thank all our volunteers who worked tirelessly to make the event happen. There are now high hopes that this event will become a mainstay of the Modern Pentathlon calendar after the outstanding success of this latest edition.
