# WADA'S NEW LIST OF PROHIBITED SUBSTANCES AND METHODS

Image not found or type unknown

WADA has completed its amendment to Section S2.1 of the 2014 List of Prohibited Substances and Methods valid from the 1st september 2014.

Hypoxia-Inducible Factor (HIF) activators Xenon and Argon have been added to the 2014 Prohibited List, following the required three-month notice period and UNESCO’s communication to all States Parties.

The recommendation to revise the List was made and approved by WADA’s Executive Committee during its May meeting.

The new List can be found in the Medical Corner of the UIPM Website.
